

Owings Mills, MD. February 19, 2013.

Efficient and property management are words rarely used together until now. Sticking to their mantra of “progress,” [Tidewater Property Management](#) is pleased to announce the launch of their newly redesigned website sure to be efficient and user friendly.

Tidewater Property Management is a comprehensive firm with clients mainly located in Maryland. The redesign was overseen by MOS Creative and boasts a sophisticated, modern layout with an updated company logo.

Founded in 1989 by Stanley B. Greenberg, Tidewater has grown into several different business entities. Tidewater Property Management has two specific divisions, community associations and rentals. The community associations division provides financial and property management for community associations including condominiums, HOAs and commercial buildings. Tidewater’s rental division manages property rentals, such as handling communication with tenants, collecting rent and more.

“We are always trying to take the company to the next level especially with the website,” explains Gianna Rahmani, Vice President. “We are progress in motion - always looking to improve and to move forward”.

For further information on the launch of the newly designed website for Tidewater Property Management, go to –

<http://www.tidewaterproperty.com/>

Some featured content sections include:

“About” - This section is separated into three different categories: “Executive Profiles”, “Tidewater Alliance” and “Tidewater Exclusive”. Not only do we find out more about the company executives in “Profiles”, but there is also detailed information about the company’s heavy involvement with charity organizations in “Alliance”. The “Tidewater Exclusive” offers Tidewater clients opportunities to save on everyday expenses.

Additional information on the new website includes:

“What’s New” - A page dedicated to bringing breaking company news to readers and clients, such as office openings and promotions. There are also press releases on this page. This page will continue to be updated with more company progress.

“Resources” - Features a list of community websites that Tidewater works with as well as Utility and County sites.

“Contact” - This page features a straightforward form that includes a large comments box, contact box and even a “Best Time to Contact” checkbox. This is very useful from a

client standpoint, in which the client has the freedom to choose what time they wish to be contacted.

Thanks to the redesign, the online community can find Tidewater's company information in a faster, more efficient manner. This is definitely progress to be proud about.
